

# Women in Tech!

COME JOIN US!

## New Club Announcement

Dear Sierra College Student,

Sierra College's Information Technology (IT) department has started a Women in Tech Club (WiT), and we would love to have you join in the community!

*"The future belongs to those who believe in the beauty of their dreams."*

*-Eleanor Roosevelt*

The Women in Tech club is a community of students from all backgrounds and skill levels interested in learning more about technology.

The mission of WiT is to cultivate talented technology students while educating their peers on how they can leverage technology to improve their current and future careers.

### At club meetings we will:

- Provide support/friendship/networking with other women in Sierra's IT program
- Bring in guest speakers from the IT industry to talk about their experiences.
- Reach out to local middle school and high schools to pique the interest of young women.
- Invite recruiters to come in and talk about career opportunities in IT.

1. Awesome Community
2. Support from students and speakers in same interest field
3. Opportunity to network

### Leadership Council:

CEO: Heather Moore  
COO: Estefany Salinas  
CFO: Jamie Christman  
CMO: Inna Timofeyeva

### Club Advisor:

Malena Prinzing

If this sparks an interest to you, please join us on [Discord](#) and at our bi-weekly meetings on Mondays at 5:30pm via [Zoom](#).
